Career Objective

Passionate engineer with a strong foundation in Electrical and Electronics Engineering. Seeking a challenging role in the electrical engineering domain where I can utilize my skills in circuit design, control systems, and energy management to contribute to efficient and sustainable engineering solutions.

Education

B.Tech in Electrical and Electronics Engineering, Sri Venkateswara College Of Engineering, Tirupati, Andhra Pradesh	2022-2026 CGPA: 7.4
Intermediate (MPC) Sri Chaitanya junior college, Andhra Pradesh	2020-2022 CGPA: 7.0
Matriculation ZP High School, Andhra Pradesh	2019-2020 CGPA: 9.2

Projects

LYAPUNOV-BASED SLIDING MODE CONTROL FOR PVWIND DC MICROGRIDS WITH HYBRID ENERGY STORAGE INTEGRATION

- This project presents focuses on the control techniques implemented on a PV-wind based standalone DC microgrid with hybrid storage system. An Enhanced Exponential Reaching Law (EERL) based sliding mode control (SMC) is applied for extraction of maximum power in a Permanent Magnet Synchronous Generator (PMSG) based wind energy system. This reaching law-based SMC tracks current reference from the optimum torque MPPT algorithm during different wind speeds and load variations and has a good dynamic response.

Skills

- Strong Fundamentals in Electrical core concepts
- Programming Languages: Python,c,DS
- Web Technologies: HTML,CSS
- Soft Skills: Effective Communication ,Growth Mindset

Certifications

- Hybrid Electric Vehicle Modelling and Performance Analysis.
- Internship in competitive programming and Advanced Algorithm Techniques.

Languages Known

- English
- Telugu

Extra - Curricular Activities

- Playing Cricket
- Watching Movies
- Listening Music
